

## **...making light work...**

Shutters hit just the right note for the office, both in the home or at work. Stylish and unfussy, they offer fingertip control of light, shade and privacy – allowing you to create the perfect working environment.

The New England Shutter Company's range offers the widest possible choice of options for any shape or size of window. There are five louvre widths, all made from solid timbers including Maple, Oak, Cherry, Teak and Walnut. Special finishes include painted, fabric covered and hand stitched leathers and suedes.

Image shows The New England Shutter Company's unique 'Manhattan' shutters (with concealed tilt mechanism) in magazine publisher Conde Nast's London offices, painted in white with 89mm blades.
