

soho so good

'Soho' shutters are a unique new design from The New England Shutter Company. The tilt mechanism is hidden and the shutter slats fold entirely flush into their frame, giving an ultra-sleek panel and the added benefit of almost total light exclusion when shut.

As with all The New England Shutter Company's shutters, Sohos are custom-built to any size, with a choice of louvre widths. They can be ordered in many natural timbers, or they can be painted, stained or covered in fabric, leather or suede.

The New England Shutter Company showroom is at:
16 Jaggard Way, London SW12 8SG t: 020 8675 1099 www.tnesc.co.uk
